linkedin · github · portfolio

SUMMARY

Full Stack AI Developer with 2 years shipping production, multi-tenant SaaS platforms end to end - React/Next.js frontends, Python and Node.js backends, and LLM features spanning RAG, multi-agent workflows, and AI security testing. Skilled in PostgreSQL, REST APIs, Docker, and AWS deployment.

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, SQL, C++, HTML, CSS
Frontend: React 19, Next.js (App Router), Tailwind CSS, shadcn/ui, Radix UI, TanStack Query, Zustand, Vite
Backend: FastAPI, Django, Flask, Node.js, Express, REST APIs, WebSockets/Socket.IO, Prisma, Drizzle ORM, SQLAlchemy, JWT
AI/ML: LLM Integration (OpenAI, AWS Bedrock, Ollama), RAG, LangChain, LangGraph, Multi-Agent Systems, Prompt Engineering, Vector Search (FAISS, ChromaDB), YOLOv8, scikit-learn, NLP, OCR
Databases: PostgreSQL, MySQL, MongoDB, Redis, SQLite, Supabase, Neon
DevOps & Tools: Docker, AWS (EC2, S3, ECS, ECR, Bedrock), OCI, Vercel, Nginx, Git, CI/CD, n8n, Stripe, Clerk, Sentry, Vitest, Playwright

EXPERIENCE

Associate Consultant - Development (AI) **Dec 2024 – Present**
Oodles Technologies *Gurugram, India*

- Deliver production AI platforms end to end - architecture, data modeling, frontend, backend, and deployment - across marketing ops, agent orchestration, AI security, and healthcare.
- Designed multi-tenant SaaS architecture with org-scoped data isolation, RBAC, invite-based onboarding, and usage-metered Stripe billing, serving admin and tenant portals from one codebase.
- Engineered RAG pipelines over enterprise and clinical knowledge bases with ChromaDB/FAISS vector search and retrieval tuning, raising answer accuracy 80% over a keyword baseline.
- Built multi-agent orchestration with tool-calling into Slack, MS Teams, Jira, and HubSpot, splitting a Node/Express control plane from a Python FastAPI runtime executing agent steps.
- Optimized LLM serving for 50% faster inference and trained a YOLOv8 detector to 95% accuracy, cutting latency and compute spend.
- Containerized services with Docker and shipped to AWS (ECS, ECR, S3) and Vercel behind Nginx, with JWT auth, Fernet encryption, Socket.IO real-time updates, and Vitest/Playwright coverage.

Data Science & AI Intern **Aug 2024 – Dec 2024**
Commudle *Delhi, India*

- Built predictive models on community engagement data reaching 85% forecasting accuracy, backed by EDA and feature engineering.
- Automated content tagging with a Perplexity AI classifier returning structured JSON, removing manual editorial triage.

PROJECTS

Marlo - AI Marketing Operations SaaS - Multi-tenant marketing ops SaaS: AI-generated 30/90-day plans, capacity-aware Kanban with at-risk flags, versioned prompt studio, Google Analytics/Ads/HubSpot OAuth. *Next.js 16, React 19, TypeScript, Drizzle ORM, Neon Postgres, Clerk RBAC, Vercel AI SDK, Stripe, Vitest, Playwright.*

Anvita AI - Enterprise AI Agent Platform - B2B agent deployment platform: visual workflow builder, employee-onboarding agent, Slack/MS Teams bots with Azure AD RBAC, credits and billing, audit logs. *Turborepo monorepo, Next.js, Express + Prisma + Supabase Postgres, Redis, FastAPI agent runtime, Socket.IO, AWS S3, Docker.*

RealGround - AI Agent Security Scanner - Red-teams LLM applications: prompt injection and jailbreak testing, permission and route mapping, SBOM generation with CVE scanning, severity-ranked remediation reports. *React, Vite, FastAPI, Promptfoo, Garak, Syft, Grype, OpenAI/Bedrock/Ollama, Docker, AWS ECS/ECR.*

Rementia - AI Dementia Care Platform - HIPAA-oriented dementia care assistant: real-time voice and text chat, RAG over medical knowledge, OCR prescription extraction with drug-interaction checks, caregiver dashboards. *React 19, FastAPI, PostgreSQL, AWS Bedrock (Nova Sonic, Titan), WebSockets, JWT, Fernet encryption, Docker, Nginx.*

EDUCATION

Master of Computer Applications (MCA), JIMS Rohini, GGSIPU, Delhi 2023 – 2025
B.Voc. Web Designing, University of Delhi, Delhi 2020 – 2023

AWARDS & LEADERSHIP

Best Paper Award, International Conference on Emerging Technologies, Chitkara University (2024)
VGA Lead, Google Developer Student Clubs, Kalindi College (2022–23) · **Volunteer**, GDG New Delhi (2022–Present)
